

## FIT INSTRUCTIONS

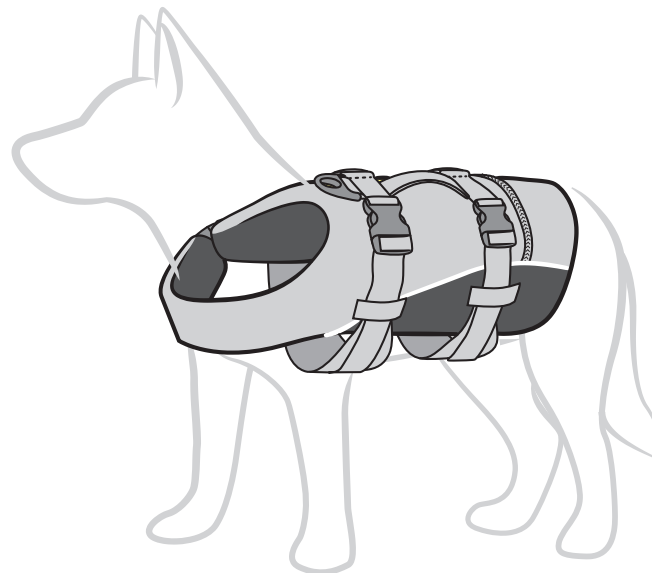

## DFD™ / DFD MICRO™

1. LOOSEN NECK STRAP & UNCLIP ALL 3 BUCKLES
2. PLACE THE DFD™ ON THE DOG'S BACK AND CONNECT THE NECK CLIP
3. POSITION DFD FOR THE GREATEST BACK COVERAGE, THEN CLIP THE TWO CHEST STRAPS. ADJUST THESE STRAPS EVENLY FOR A SNUG FIT.
4. ADJUST THE NECK STRAP FOR SLIGHTLY LOOSE FIT (CHEST STRAPS WILL KEEP THE DFD™ IN PLACE)

**TIP:** THE FLOATATION PORTION OF THE NECK STRAP DOES NOT NEED TO COVER YOUR DOGS ENTIRE NECK – THEY WILL RECEIVE SUFFICIENT FLOAT FROM THE BACK PORTION OF THE DFD™

**IMPORTANT:** DO NOT OVERTIGHTEN STRAPS! WHEN FITTED CORRECTLY, DFD™ SHOULD BE SNUG, BUT TWO FINGERS SHOULD EASILY RUN BETWEEN STRAPS & DOG.

NOW GO AND PLAY!
