

the Kitty Pass™ pat. pending

INSTALLATION INSTRUCTIONS

1. Remove door from hinges
(see the sample pictures)

2. Next mark a centerline at the
bottom of the door

3. Next, cut the template out,
place it on the center mark
on the door and trace around
the edge with a pencil.

4. Next using a jig saw or
similar tool, saw along the
pencil mark on the door..

5. Next wipe down door and clean
off all debris.

6. Next install the face of the Kitty Pass
using the 3m adhesive strips (please note,
the bond on these adhesive strips is very
strong, just lay the Kitty Pass in place and
then push down firmly.)

7. Next flip the door over and install the rear part of the Kitty Pass, simply line
it up with the grooved edge and using the adhesive strips press down firmly

DOOR HOLE TEMPLATE

1. Place a center mark on the bottom of your door.
2. Using a pair of scissors, cut out this paper template on the black line.
3. Then line up the paper template center mark to the center mark on your door, Now carefully trace around the outside of the template with a pencil (this will give you a perfect cut line on your door for sawing)
4. Saw along the pencil mark on the door. You can now install the Kitty Pass.
