

## COZY COOP INSTRUCTIONS FOR USE

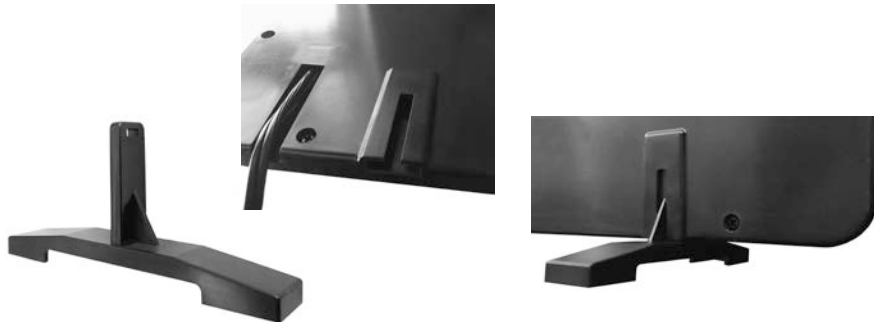

Cozy Coop radiant flat-panel heater... a safe alternative to dangerous 250 watt heat lamps in chicken coops in extreme winter weather.

Thermostatically controlled, radiant heat reduces the risk of frostbite to combs and feet in well-ventilated coops. Certified Zero Clearance – safe to the touch and for use with all bedding types. Keeps birds comfortable without over-heating or creating drastic, unhealthy temperature differences between inside and out.

- For use in chicken coops and similar structures subject to extreme cold in winter
- Protect your birds from deep freeze while not overheating the coop.
- May safely be deployed in the same area as the birds, since the surface temperature is safe to touch

**Free-Standing Use:** To use Cozy Coop free-standing, simply push the feet (supplied) snugly into the slots on the back of the unit. The feet are removable.

**Wall-mounted:** Mark the wall or panel for the desired position. Attach secure hooks, screws\* or nails as most appropriate for the mounting surface. Hang the unit using the mounting holes in the back (\*basic wood screws included; use your own if a different size or type are preferred).

### HEAT CONTROL:

Cozy Coop has built-in cord switch that permits use at HALF power (one line) or FULL power (two lines). The switch is LIT when the unit is ON. The middle position (O) is OFF.

**HEAT DISPLAY:** The front panel surface has a convenient heat-sensitive indicator, clearly visible from a distance, to show when the panel is in use. When heated, it shows the universal 'ON' symbol as shown in the upper left corner of the unit. When cold, it disappears. When this red indicator is visible, the unit is ON or still warm.

**CLEANING:** Unplug unit and wipe with a damp cloth.

### IMPORTANT: READ BEFORE USE

**CAUTION:** this appliance is designed for use ONLY with 110/120 volt power supply. DO NOT use with 220/240 volt electric supply.

This appliance has a polarized plug. To reduce risk of electric shock, this plug is intended to fit in a polarized outlet one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not modify the plug in any way.

**WARRANTY:** This product is warranted against defects in materials and workmanship for a period of six months from the shipping date. At the option of Cozy Products, we will either replace or repair the defective unit. Please contact Customer Service for help 800.662.5021 customerservice@cozyproducts.com

**WARNING:** Take care to determine prior to use whether this device is suitable, adequate or safe for the use intended. Since individual applications are subject to great variation, the manufacturer makes no representation or warranty as to suitability or fitness of these devices for any specific application. While product includes an over temperature regulator, misuse may cause failure, damaging the product, mounting surface or work area. Use in a dry area; avoid exposure to moisture. Mount free from materials that hinder the transfer of heat. Do not drape or cover product with any material. Always allow heat to escape. Protect from puncture. Turn off when not in use. Use caution as you would with any hot product.
