

# Thank you for purchasing the Wondurdog Tub Spout Dog Wash Kit

**Wondurdog gives back.** When you buy a Wondurdog product we donate 10% of proceeds to [ThePetFund.com](https://www.thepetfund.com)  
*The Pet Fund* saves lives by helping pets and owners who can't afford veterinarian care get the care they need.

## Included in the dog wash kit:

7 foot hose

Shower brush head

Shut off valve  
for shower pipe

Tub spout diverter

Splash jacket

Drawstring  
storage bag

## Set-up Instructions:

- See reverse side **OR** view a short instructional set-up video at [wondurdog.com](https://wondurdog.com).
- If you have questions about installation, please contact us at [support@wondurdog.com](mailto:support@wondurdog.com). We're here to help. **REALLY!**

## Features of the Shower brush head:

- To temporarily stop water flow to brush head, move switch to OFF position.\*
- The brush head has two key positions:
  - For more control on the direction of water and to prevent splashing, keep rubber shield in DOWN position.
  - For deep cleaning and to remove dirt and debris, flip the rubber shield to UP position.

**\*IMPORTANT:** If you leave the water on and the shower brush in the OFF position for an extended period of time, it can cause breakdown such as water leak, head burst, and water flowing backwards.  
**ALWAYS** turn the water off when finished using the product and leave the brush in the ON position.

## Questions/Comments?

E-mail us at [support@wondurdog.com](mailto:support@wondurdog.com)

We'd love to hear from you!

We invite you to post pictures of your muddy puppy and/or your clean *Wondurdog* pup on social media
