

# chewy Vet Diet FAQ

## Why should I buy Vet Diet food online?

Shopping for Vet Diet food is easy! Chewy experts are available 24/7 to answer your questions and guide you through the process. We offer competitive prices, free shipping on orders over \$49, and more savings if you sign up for an Autoship subscription.

## How do I order Vet Diet food?

1. Search our website for the diet your vet recommends, then add it to your cart. You can purchase your Vet Diet food with any other goodies you need!
2. At checkout, you'll be asked for required information. Enter your pet's name and type your vet's name and telephone number.
3. Place your order, and we'll take care of the rest!

## How will you contact my vet?

Our Vet Diet team will personally contact your vet for approval. If your clinic needs more information from you or recommends a different diet, we'll let you know immediately.

## Does it help if I send you my prescription?

Yes! If you have a paper copy of your prescription, email a picture to [vetdiet@chewy.com](mailto:vetdiet@chewy.com), start a chat, or fax your prescription to 1-800-619-7973.

## Can I use a prescription written by a veterinarian out of state?

Of course! We can accept valid prescriptions from anywhere in the United States and Canada—that includes US territories, like Puerto Rico.

## Why do I need a prescription?

Veterinary diets are formulated with the precise ingredients and nutrients needed to address specific medical issues. If you don't have a paper prescription, no sweat—once you provide your vet's information, our team will take over.

## Can someone else (such as a caretaker or family member) place an order for my pet?

Yes, but we'll need them to provide us with your full name or the pet's owner's name via phone, email or chat after the order is placed, so the clinic can locate your pet's records when we contact them.

## How can I help expedite my order?

Just follow these simple steps:

1. Create your pet's profile on [Chewy.com](https://www.chewy.com).
2. If you have an Autoship scheduled, but you're running low on refills, contact us ahead of time to let us know if you have a new clinic or if any prescription information has changed.
3. If you have a prescription handy, send it to us before you order—by sending an email to [vetdiet@chewy.com](mailto:vetdiet@chewy.com), starting a chat with one of our experts, or faxing us at 1-800-619-7973.

## Do I need to set up a pet profile?

We recommend it, but it's not required. You can create your pet's profile by logging in at [Chewy.com](https://www.chewy.com), hovering over your account, and choosing "pet profile."

## Do prescriptions expire?

Yes. Your vet will tell us when your prescription will expire and how many refills we can send before they'd like you to check back in with them.

## Can I set up auto refills?

Yep! Sign up for Autoship and we'll automatically ship your food for as long as your prescription allows. If you run out of refills, or your prescription expires, we'll automatically contact your vet for a new approval. If we hit any bumps in the road, we'll let you know right away.

## What if I have more questions? How can I reach the Vet Diet team at Chewy?

Email us at [vetdiet@chewy.com](mailto:vetdiet@chewy.com), start a chat on [Chewy.com](https://www.chewy.com), or call us anytime at 1-800-672-4399. We're here for you 24/7.
